```

- Hosting domain

The screenshot shows the 000webhost file manager interface. The top navigation bar includes the 000webhost logo, the account name 'uaskelompok2pemrogramanweb2', the current directory 'public_html', and a 'Go Premium' button. A sidebar on the left shows a tree view of the file system. The main area displays a table of files and folders.

Terdapat perbedaan koding koneksi db di github dengan di domain. Karena di github hanya menggunakan localhost user root dan tanpa password sedangkan yang di domain sudah di rubah user name password dan nama databasenya, sesuai yang ada di database yang kita buat di 000webhost.
